

GHO\$TRADER

Ghostrader Competitive Intelligence Report

Document ID: GR-MARKET-001 | Step 2 | Version 1.0 | Prepared for Project Ghostrader | Date: 2026-06-30

Top 20 Platform Profiles

Purpose: identify where existing products are strong, where users experience friction, and where Ghostrader can avoid becoming another crowded data screen.

1. TradingView

Pricing / access	Free; paid tiers roughly Essential to Premium/Ulimate; Premium listed at \$59.95/mo billed annually in current official pricing snapshot.
Strengths	Best-in-class charting, social scripts, alerts, cross-asset coverage.
Weaknesses	Can become indicator-heavy; paid data/add-ons complicate cost; not built as beginner guidance engine.
Users love	Charts, alerts, community scripts
Common gaps	Simpler AI interpretation, better real-time screener reliability, cost clarity
Sources	S1, R3

2. TrendSpider

Pricing / access	Official pricing shows paid plans and add-ons; third-party 2026 snapshots show roughly \$82-\$349/mo monthly depending on tier.
Strengths	Automation, pattern recognition, backtesting, bots, AI/product positioning.
Weaknesses	Perceived by some traders as clunky/slow; advanced feature density can overwhelm.
Users love	Automated TA, scanner/bots, backtesting
Common gaps	Cleaner UX, simpler beginner workflows, lower friction setup
Sources	S2, R3

3. Finviz

Pricing / access	Elite promotion observed at \$199.50 first year; regular Elite commonly around \$299.50/yr or about \$39.50/mo.
Strengths	Fast screener, heat maps, broad snapshot, low-friction workflow.
Weaknesses	Less interactive charting; limited AI; old-school UX; delayed quotes on free tier.
Users love	Screening, heat maps, exports
Common gaps	Real-time intelligence, AI explanations, modern UI, mobile depth
Sources	S3, R2

4. Stock Rover

Pricing / access	Premium/Premium Plus/Ulimate; official plans page lists Premium at \$29/mo and Premium Plus tiers higher depending billing.
Strengths	Deep fundamentals, metrics, portfolio analytics, research reports.
Weaknesses	Can feel clunky; mobile/on-the-go workflow weaker per Reddit feedback.
Users love	Fundamental metrics, custom views, portfolios
Common gaps	Simpler UI, mobile-first summaries, AI guidance layer
Sources	S4, R1

5. Seeking Alpha

Pricing / access	Premium renewal noted at \$299/yr; plans include Basic/Premium/PRO and Alpha Picks products.
Strengths	Large investing community, analyst articles, Quant ratings, factor grades.
Weaknesses	Subscription upsells; users may want scoring without articles/community.
Users love	Factor grades, articles, quant ratings
Common gaps	Clean scores without noise, unified article/news distillation
Sources	S5, R4

6. Benzinga Pro

Pricing / access	Official page cites Essential annual \$166.42/mo billed \$1,997/yr; monthly Essential cited \$197/mo.
Strengths	Fast news, scanners, squawk, calendars, AI/news workflow.
Weaknesses	Expensive for beginners; news-heavy product may require active-trader attention.
Users love	Breaking news, scanners, audio squawk
Common gaps	Affordable intelligence briefings, less noise, beginner mode
Sources	S6

7. Morningstar Investor

Pricing / access	Standard consumer pricing widely listed around \$249/yr; official site emphasizes research, ratings, tools.
Strengths	Trusted research, fund/ETF ratings, portfolio tools, long-term orientation.
Weaknesses	Less suited to active trading; interface can feel research-report oriented.
Users love	Fund/ETF research, ratings, portfolio x-ray
Common gaps	Combine long-term research with daily AI market briefings
Sources	S5

8. Koyfin

Pricing / access	Official pricing page; G2/SoftwareAdvice snapshots cite Free, Plus \$39/mo, Pro/Premium near \$79/mo, advisor tiers higher.
Strengths	Macro, dashboards, global data, professional layout at lower cost than terminals.
Weaknesses	Can be too broad/complex for beginners; less consumer guidance.
Users love	Dashboards, macro data, global screeners
Common gaps	Beginner abstraction layer and plain-English reasoning
Sources	S7

9. Thinkorswim/Schwab

Pricing / access	Broker platform, generally no platform subscription for Schwab clients; trading/data rules vary.
Strengths	Robust charting, options tools, broker integration.
Weaknesses	Complex learning curve; not primarily an AI research assistant.
Users love	Integrated trading, options analysis
Common gaps	AI guidance outside broker execution, simpler daily workflow
Sources	S8

10. Webull

Pricing / access	Official pricing states \$0 commissions for US exchange-listed stocks, ETFs and options; certain index options fees apply.
Strengths	Low-cost brokerage, mobile UX, active trader features.
Weaknesses	Research depth less comprehensive than specialist platforms; market data subscriptions may add cost.
Users love	Mobile trading, low fees, watchlists
Common gaps	Independent research OS not tied to brokerage execution
Sources	S8

11. Interactive Brokers

Pricing / access	\$0 US stock/ETF commissions available; market-data fees pass-through and vary by subscription.
Strengths	Professional execution, global markets, low margin rates, API power.
Weaknesses	Professional complexity; market data subscriptions can be confusing.

Users love	Execution, global markets, API
Common gaps	Simplified decision support before execution
Sources	S9

12. Trade Ideas

Pricing / access	Official pricing lists TI Basic \$89/mo annual equivalent; TI Premium \$178/mo annual equivalent.
Strengths	Real-time scanning, Holly AI, backtesting, simulated trading.
Weaknesses	Expensive; learning curve; day-trader oriented.
Users love	Real-time scanners, AI signals, backtests
Common gaps	Lower-cost beginner intelligence and explainable scores
Sources	S10

13. MarketSurge / MarketSmith

Pricing / access	MarketSurge page cites \$149.95/mo all premium features included.
Strengths	CAN SLIM methodology, ratings, pattern recognition, growth investing discipline.
Weaknesses	Narrower style bias; expensive for beginners; methodology-specific.
Users love	Growth screens, pattern recognition
Common gaps	Multi-style AI explanation without locking user into one method
Sources	S11

14. Simply Wall St

Pricing / access	Free plan; official plans show limited free reports/watchlists and premium tiers.
Strengths	Visual Snowflake fundamental summaries, global market access, beginner-friendly visuals.
Weaknesses	Can oversimplify; less trading/real-time focus.
Users love	Visual valuation summaries, reports
Common gaps	Pair visual simplicity with timely market intelligence
Sources	S12

15. WallStreetZen

Pricing / access	Zen Ratings analyzes stocks by 115 factors; pricing not fully captured from official page in this pass.
Strengths	Simple A-F ratings and part-time investor positioning.
Weaknesses	Users question methodology/statistics behind ratings.
Users love	A-F stock ratings, factor checks
Common gaps	Transparent scoring methodology and audit trail
Sources	S13

16. Zacks

Pricing / access	Premium product; third-party current reviews cite \$249/yr; official page emphasizes Zacks Rank performance history.
Strengths	Well-known earnings revision/rank system, stock lists.
Weaknesses	Legacy feel; narrow dependence on earnings revisions criticized by reviewers.
Users love	Ranked stock ideas, earnings revisions
Common gaps	Modernize ranking with multi-source evidence and explanation
Sources	S14

17. VectorVest

Pricing / access	Subscription product; app page says it ranks 8,000+ stocks by Value, Safety, Timing and gives Buy/Sell/Hold.
Strengths	Integrated ranking, market timing, education/backtesting.
Weaknesses	Learning curve; recommendation system may feel proprietary/opaque.
Users love	Buy/Sell/Hold, education, backtesting
Common gaps	Explainable open framework and modern UX
Sources	S15

18. Magnifi

Pricing / access	App store lists in-app purchases such as monthly/annual subscriptions; official site positions it as AI-powered investing companion.
Strengths	Conversational AI investing assistant, planning, search, portfolio analysis.
Weaknesses	AI quality must be trusted; may not satisfy active trader needs.
Users love	AI search, brokerage aggregation, portfolio insights
Common gaps	Stronger market OS plus explainable signal engine
Sources	S16

19. AlphaSense

Pricing / access	Official page uses quote-based annual pricing; claims 6,000+ enterprises and 85%+ of S&P; 100.
Strengths	Enterprise AI search across filings, transcripts, broker research, expert calls.
Weaknesses	Enterprise pricing and complexity; not a retail beginner tool.
Users love	AI search, enterprise content, sentiment
Common gaps	Bring selective enterprise-style intelligence to retail workflow
Sources	S17

20. Yahoo Finance / Investing.com

Pricing / access	Freemium market portals; Investing.com emphasizes AI tools, screeners, news, and large investor audience.
Strengths	High traffic, free data/news, watchlists, broad coverage.
Weaknesses	Ad-heavy/noisy, less structured decision support.
Users love	Free quotes/news, watchlists, calendars
Common gaps	Curated no-noise daily intelligence OS
Sources	S1

References and Source Notes

Pricing and product information should be re-verified before investor or public use. Vendor pricing changes frequently, and some platforms use promotional, annual, regional, or quote-only pricing.
